Hosted Virtual SAP Training Classes

Hosted Virtual SAP Training Classes with DataSense Solutions are the perfect option for those students who are taking virtual classes, but would still prefer the structured feel of a public classroom. With DataSense Solutions hosted virtual classes, students can enjoy the worry-free environment of having a system provided for them with no incompatibilities and the added bonus of a certified SAP consultant on hand for assistance. Hosted virtual classes are held at 230 Second Avenue, Waltham, MA, in our training facility.

Hosted Virtual SAP Training Classes are a great option for students who would prefer to take SAP training classes away from the office, to minimize distractions and optimize the learning experience. Concentrate fully on the virtual training session with no interruptions, in a quiet classroom setting.

- Training classroom environment, no distractions, places you more in "learning mode".

- Use all our equipment, no need to worry about system incompatibilities.

- Get out of the office and away from daily distractions for the duration of the class.

- Network with other people in learning environment.

- Professional SAP Consultant on hand for trainings.

Register online at www.datasensesolutions.com and place "Waltham" in the promotion code field.
